

1908 – Idora Park

Picture of Idora Park.

Slot car racing is for kids at home with their scalextric sets, right? Wrong – in 1908, a full size slot car track was built at Idora Park, California, although it featured concession rides rather than proper races. It isn't known if this was active beyond this year or not. It cost \$25,000, and was built by Raleigh B. and Frank R. Fagoel of Oakland.
